Objective

To effectively manage park visitor use of lands under the care and management of Parramatta Park Trust (the Trust).

Introduction

The Trust recognises the important contribution that access and use of open space has to the community. It welcomes, supports and provides opportunities for the community to initiate and participate in a variety of activities.

Increasing numbers of visitors want to use entertainment and other items within the Park, raising a number of issues of concern for the community and space managers including:

- a) Equity of access – e.g., potential conflict with regular users, management of demand, domination and monopolisation of areas and use of publicland;
- b) Impact on the park and assets – e.g., Items being brought in causing damage to grass areas or other park facilities,
- c) Public safety and liability concerns – e.g., jumping castle blowing off the ground and injuring other park users; and
- d) Impacts upon nearby residents, stakeholders and the public e.g., noise.

There is a need to manage and balance the use of entertainment and other items for booked activities in the Park and this policy responds to that need.

Aims

In implementing this policy, the Trust aims to:

- Ensure equity of access to the Park.
- Ensure safety of participants.
- Ensure visitor activities do not impact on turf and facility condition and maintenance.
- Minimise safety and public liability concerns.
- Appropriately manage the Park to prevent conflicts.
- Minimise impacts on nearby residents, park users and other stakeholders.

Scope

This policy covers all lands within Parramatta Park under the care and management of the Trust for all:

- a) Visitor's activities and functions.
